RUBBER EDGE

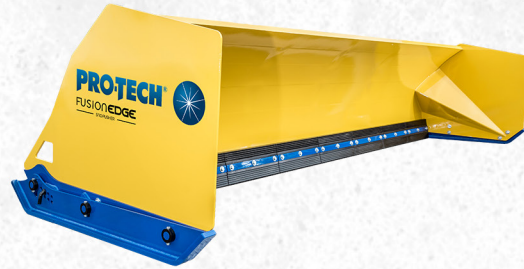

SNO PUSHER

Since its introduction 30 years ago, the Rubber Edge Sno Pusher by Pro-Tech has been the most popular containment plow in the industry. The rubber edge has the perfect combination of hardness, stiffness, and flexibility to clear snow on a variety of surfaces.

FUSION EDGE

SNO PUSHER

A snow pusher that offers incredible surface outcome, durability and ease of use. The Fusion Edge Sno Pusher features a first-of-its-kind steel infused rubber cutting edge, wear shoes, and floating coupler that will leave your properties spotless and your customers impressed.

NEW

STEEL EDGE

SNO PUSHER

Simple in design, exceptionally effective. The fully welded Steel Edge Sno Pusher gives end users the durability Pro-Tech is known for with the combination of an ingeniously simple steel cutting edge option. The steel cutting edge allows users to overcome winter conditions, excelling with hardpack snow and pesky ice. The simple trip edge design simplifies the operation with a reinforced singular steel cutting edge and guided torsion springs.

LIVE EDGE

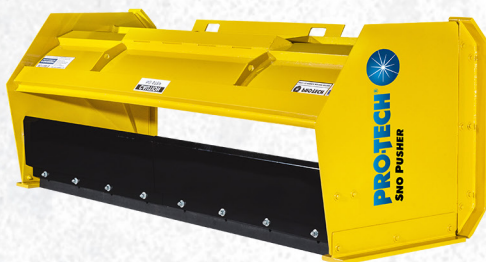

SNO PUSHER

The Live Edge Sno Pusher features the industry-leading Live Edge Technology, ensuring superior surface outcome. The Live Edge Sno Pusher also features an all-new floating coupler design. The efficiency and productivity of the Live Edge Technology are matched with the durability and ease of use of Pro-Tech. Operators will find themselves with an all-around superior snow removal tool for a more efficient snow removal operation.

PULLBACK

SNO PUSHER

The Pullback Sno Pusher lets an operator 'pull' snow away from loading docks, doors and other tight spaces that traditionally had to be cleared with a truck plow, or even a shovel! With the 'pulling' functionality, a Sno Pusher becomes even more versatile on a job site.

NEW

TRACTOR

SNO PUSHER

A snow pusher for compact tractors. The Tractor Sno Pusher model is everything you'd find in the large model Pro-Tech Sno Pusher scaled down to best suit homeowner use. No more shoveling or snow-blowing long driveways and forget about using the bucket, easily attach the Tractor Sno Pusher to swiftly remove snow from behind the wheel of a compact tractor. Built the Pro-Tech way using heavy-duty steel to handle the worst of winter conditions.

FOLDOUT

SNO PUSHER

The Foldout Sno Pusher allows for easy navigation of properties that have many obstacles. In addition, the Foldout provides operators with a “road-friendly” Sno Pusher that can be used on multiple sites during the course of a winter event.

SUPER DUTY

SNO PUSHER

The Super Duty Sno Pusher is the largest containment plow in the industry and is best paired with larger prime movers (4+ yd bucket capacity). While very popular among airports and distribution centers the Super Duty Sno Pusher can also be used in construction or agricultural applications.

LOW PROFILE

SNO PUSHER

Clear snow from underneath parked trailers, especially the fifth wheel pins. The Low Profile is 30" tall and 18' wide. Its offset design allows for 6' of reach under obstacles and windrows snow to the side.

TURF PUSHER

This lightweight but durable plow smoothly glides over natural and artificial playing fields with minimal disruption to the surface. The Turf Pusher contains and stacks snow and allows customers to keep their playing fields open all year round.

FORK LIFT

SNO PUSHER

The Forklift Sno Pusher allows you to turn your company's forklift into a snow removal machine. Perfect for loading docks, and parking spots. Often used as an emergency backup to a primary snow removal option.

SNO PUSHER REPLACEMENT PARTS

Pro-Tech's Sno Pusher Replacement Parts are made with the highest quality of craftsmanship and materials. Wear parts are a necessity of the industry. Pro-Tech Sno Pusher Replacement Parts are engineered and designed to keep that necessity to a minimum, reducing disruption to snow removal operations. Several options and upgrades are available to increase efficiency and address specific situations. For more information, scan the QR code or call 844.204.8210
